SUMMARY

Emerging software engineer with previous experience in software development teams as a Business Analyst. Started a career change in 2020 by completing an Undergraduate Certificate of Computer Science, followed by a Diploma of IT in web development (bootcamp style) in 2021.

KEY PROJECTS

- Solar Mapper – A two-sided marketplace using Ruby on Rails & PostgreSQL, deployed using Heroku.
- Solar App – Developed a command line app using Ruby for generating costs and benefits of solar systems.
- dwatts.com.au – Used Sass/HTML to develop a responsive portfolio page, deployed using Netlify.
- House Prices – a linear regression model using Python & Jupyter Notebooks for predicting house sale prices.

WORK EXPERIENCE

Lead Business Analyst
IVVY
MAY 2019 – MAR 2021

- Documented and designed new features (billing, payments, CRM, integrations, booking engines) for a web application and event marketplace (ivvy.com).
